

REGULATOR FLOW METER

Model : 26 RF

HMP make **Argon / Carbon dioxide** Regulator combination in one unit specially designed for **MIG & TIG** and other inert gas welding purpose.

- **MIG** (Metal-arc inert-gas welding) / **TIG** (Tungsten inert-gas welding) application
- **Regulator – Flow meter** combine in one unit
- Forged brass body
- Reinforced neoprene rubber diaphragm
- Sintered inlet filter
- Internal self relief valve

TECHNICAL SPECIFICATION

GAS SERVICE	INLET CONNECTION	OUTLET CONNECTION	INLET PREESURE GAUGE	FLOW METER	WEIGHT
Ar / CO ₂	5/8" BSP RH (M)	3/8" BSP RH (M)	0-300 bar / 0- 4500 psi	5 – 40 lpm	850 gm (approx)

Unit Conversion : 1 bar = 100 kPa, 1 SCFH = 0.472 lpm
