

B.P.C FLOW-METER

A BPC flow meter, or Back Pressure Compensated flow meter, is a medical device that measures the flow of oxygen in healthcare settings.

Feature :

1. Accurate performance
2. Mounted fitting
3. User friendly
4. Clinical appearance
5. Leak proof

Specification:

- Body – Brass bar stock
- Outer & inner tubes - Polycarbonate
- Internal seals – PTFE
- SS ball
- Inlet pressure – Oxygen 4.2 kg/cm²(max)
- Calibrated pressure : 0 - 15 lpm
- Accuracy - ± 10 % scale value
- Auto clamp
